#### **CMS National Coverage Policy**

Language quoted from Centers for Medicare and Medicaid Services (CMS), National Coverage Determinations (NCDs) and coverage provisions in interpretive manuals is italicized throughout the policy. NCDs and coverage provisions in interpretive manuals are not subject to the Local Coverage Determination (LCD) Review Process (42 CFR 405.860[b] and 42 CFR 426 [Subpart D]). In addition, an administrative law judge may not review an NCD. See Section 1869(f)(1)(A)(i) of the Social Security Act.

Unless otherwise specified, italicized text represents quotation from one or more of the following CMS sources:

#### Title XVIII of the Social Security Act:

Section 1833 (e) prohibits Medicare payment for any claim which lacks the necessary information to process the claim.

Section 1862 (a) (1) (A) excludes expenses incurred for items or services which are not reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member.

Section 1862 (a) (13)(C) defines the exclusion for payment of routine foot care services.

#### Code of Federal Regulations:

(CFR) Part 411.15., subpart A addresses general exclusions and exclusion of particular services.

#### CMS Publications:

CMS Publication 100-02, Medicare Benefit Policy Manual, Chapter 15:

290 Foot care services which are exceptions to the Medicare coverage exclusion.

CMS Publication 100-03, Medicare National Coverage Determinations (NCD) Manual Part 1:

70.2.1 Services provided for diagnosis and treatment of diabetic peripheral neuropathy.

CMS Publication 100-09, Medicare Contractor Beneficiary and Provider Communications Manual, Chapter 5:

National Correct Coding Initiative.

#### **Article Guidance**

#### **Article Text**

This article contains coding and other guidelines that complement the Local Coverage Determination (LCD) for Routine Foot Care and Debridement of Nails.

#### **National Coverage Provisions:**

Created on 10/18/2022. Page 3 of 23

The following services are considered to be components of routine foot care, regardless of the provider rendering the service:

- The cutting or removal of corns and calluses;
- Clipping, trimming, or debridement of nails, including debridement of mycotic nails;
- Shaving, paring, cutting or removal of keratoma, tyloma, and heloma;
- Non-definitive simple, palliative treatments like shaving or paring of plantar warts which do not require thermal
  or chemical cautery and curettage;
- Other hygienic and preventive maintenance care, such as cleaning and soaking the feet, the use of skin creams to maintain skin tone of either ambulatory or bedfast patients, and any other service performed in the absence of localized illness, injury, or symptoms involving the foot.

The treatment of warts (including plantar warts) on the foot is covered to the same extent as services provided for the treatment of warts located elsewhere on the body.

Services ordinarily considered routine might also be covered if they are performed as a necessary and integral part of otherwise covered services, such as diagnosis and treatment of diabetic ulcers, wounds, and infections.

#### **Mycotic Nails**

Treatment of mycotic nails may be covered under the exceptions to the routine foot care exclusion. The class findings, outlined below, or the presence of qualifying systemic illnesses causing a peripheral neuropathy, must be present and grant the presumption of coverage. Payment may be made for the debridement of a mycotic nail (whether by manual method or by electrical grinder) when definitive antifungal treatment options have been reviewed and discussed with the patient at the initial visit and the physician attending the mycotic condition documents that the following criteria are met: In the absence of a systemic condition, the following criteria must be met:

In the case of ambulatory patients there exists:

Clinical evidence of mycosis of the toenail, and

Marked limitation of ambulation, pain, or secondary infection resulting from the thickening and dystrophy of the infected toenail plate.

In the case of non-ambulatory patients there exists:

Clinical evidence of mycosis of the toenail, and the patient suffers from pain or secondary infection resulting from the thickening and dystrophy of the infected toenail plate.

#### **Class Findings**

#### **Class A findings**

Non-traumatic amputation of foot or integral skeletal portion thereof.

#### **Class B findings**

Absent posterior tibial pulse;

Advanced trophic changes such as (three required):

- hair growth (decrease or absence);
- nail changes (thickening);
- pigmentary changes (discoloration);
- skin texture (thin, shiny);
- skin color (rubor or redness); AND

Absent dorsalis pedis pulse.

#### **Class C findings**

Claudication;

Temperature changes (e.g., cold feet);

Edema;

Paresthesias (abnormal spontaneous sensations in the feet); and

Burning.

The presumption of coverage may be applied when the physician rendering the routine foot care has identified:

- 1. A Class A finding;
- 2. Two of the Class B findings; or
- 3. One Class B and two Class C findings.

#### Loss of Protective Sensation (LOPS):

For coverage information on Services Provided for the Diagnosis and Treatment of Diabetic Sensory Neuropathy with Loss of Protective Sensation (LOPS), and its relation to coverage of Routine Foot Care Services, refer to *Medicare National Coverage Determinations (NCD) Manual*, Section 70.2.1.

According to this National Coverage Determination,

Effective for services furnished on or after July 1, 2002, Medicare covers, as a physician service, an evaluation (examination and treatment) of the feet no more often than every six months for individuals with a documented diagnosis of diabetic sensory neuropathy and LOPS, as long as the beneficiary has not seen a foot care specialist for some other reason in the interim. LOPS shall be diagnosed through sensory testing with the 5.07 monofilament using established guidelines, such as those developed by the National Institute of Diabetes and Digestive and Kidney Diseases guidelines. Five sites should be tested on the plantar surface of each foot, according to the National

Institute of Diabetes and Digestive and Kidney Diseases guidelines. The areas must be tested randomly since the loss of protective sensation may be patchy in distribution, and the patient may get clues if the test is done rhythmically. Heavily callused areas should be avoided. As suggested by the American Podiatric Medicine Association, an absence of sensation at two or more sites out of 5 tested on either foot when tested with the 5.07 Semmes-Weinstein monofilament must be present and documented to diagnose peripheral neuropathy with loss of protective sensation.

The examination includes:

A patient history, and

A physical examination that must consist of at least the following elements:

Visual inspection of forefoot and hindfoot (including toe web spaces);

Evaluation of protective sensation;

Evaluation of foot structure and biomechanics;

Evaluation of vascular status and skin integrity;

Evaluation of the need for special footwear; and

Patient education.

#### **Coding Information:**

Procedure codes may be subject to National Correct Coding Initiative (NCCI) edits or OPPS packaging edits. Refer to NCCI and OPPS requirements prior to billing Medicare.

For services requiring a referring/ordering physician, the name and NPI of the referring/ordering physician must be reported on the claim.

A claim submitted without a valid ICD-10-CM diagnosis code will be returned to the provider as an incomplete claim under Section 1833(e) of the Social Security Act.

The diagnosis code(s) must best describe the patient's condition for which the service was performed. For diagnostic tests report the result of the test if known; otherwise the symptoms prompting the performance of the test should be reported.

In addition, the beneficiary may have complicated diagnosis(es) that require them to be under the care of a primary physician for the disease that is causing the beneficiary to seek provider based routine foot care. For the asterisked conditions below, the name of the primary physician (must be a D.O. or M.D.) who made the diagnosis, and the approximate date of the last visit should be included in the record and entered on the appropriate claim forms or electronic equivalent when billing Medicare per the Benefit Policy Manual noted above. Please refer to the CMS website for instructions for billing Part A and Part B claims.

#### **Specific Coding Guidelines:**

Global surgery rules will apply to routine foot care procedure codes 11055, 11056, 11057, 11719, 11720, 11721, and G0127. As a result, an E&M service billed on the same day as a routine foot care service is not eligible for reimbursement unless the E&M service is a significant separately identifiable service, indicated by the use of modifier 25, and documented by medical records.

#### **Documentation Requirements:**

The patient's medical record must contain documentation that fully supports the medical necessity for services included within the LCD. (See "Indications and Limitations of Coverage.") This documentation includes, but is not limited to, relevant medical history, physical examination, and results of pertinent diagnostic tests or procedures.

Documentation supporting the medical necessity, such as physical and/or clinical findings consistent with the diagnosis and indicative of severe peripheral involvement must be maintained in the patient record.

The clinical documentation must clearly show that the patient's condition warrants a provider rendering these services in accordance with the above instruction, and failure to provide such professional services would be hazardous to the beneficiary due to their underlying medical condition(s). **The billed diagnoses should be supported with clinical findings**. Failure to properly document the reasoning for the care rendered may result in denial of the claim.

There should be documentation of co-existing systemic illness. The physical examination and findings must be precise and specific, with documentation of the location, appearance, characteristics and symptoms of the nails and/or lesion(s). The procedure note must describe what, how and where the procedures were performed and correlate these treatments to the lesions documented on the physical examination. The procedure note may reference the physical examination when describing the treatment(s) given during the procedure (e.g., left great toe, or right foot, 4<sup>th</sup> digit.)

There must be adequate medical documentation to demonstrate the need for routine foot care services as outlined in this determination. This documentation may be office records, physician notes or diagnoses characterizing the patient's physical status as being of such severity to meet the criteria for exceptions to the Medicare routine foot care exclusion.

Routine identification of fungi in the toenail either by culture **or similarly by either nucleic acid probes or amplified probe technique** only is medically indicated only when necessary to differentiate fungal disease from psoriatic nail, or when definitive treatment for prolonged oral antifungal therapy has been planned and there must be adequate documentation in the file. If cultures or nucleic acid probes or amplified probe techniques are performed and billed, documentation of cultures or nucleic acid probes or amplified probe techniques and the need for prolonged oral antifungal therapy must be in the patient record and available to Medicare upon request.

#### **Utilization Guidelines:**

Routine foot care services are considered medically necessary once (1) in 60 days. More frequent services will be considered not medically necessary. Services for debridement of more than five nails in a single day may be subject to special review.

# **Coding Information**

#### **CPT/HCPCS Codes**

**Group 1 Paragraph:** 

N/A

**Group 1 Codes:** (7 Codes)

CODE	DESCRIPTION
11055	PARING OR CUTTING OF BENIGN HYPERKERATOTIC LESION (EG, CORN OR CALLUS); SINGLE LESION
11056	PARING OR CUTTING OF BENIGN HYPERKERATOTIC LESION (EG, CORN OR CALLUS); 2 TO 4 LESIONS
11057	PARING OR CUTTING OF BENIGN HYPERKERATOTIC LESION (EG, CORN OR CALLUS); MORE THAN 4 LESIONS
11719	TRIMMING OF NONDYSTROPHIC NAILS, ANY NUMBER
11720	DEBRIDEMENT OF NAIL(S) BY ANY METHOD(S); 1 TO 5
11721	DEBRIDEMENT OF NAIL(S) BY ANY METHOD(S); 6 OR MORE
G0127	TRIMMING OF DYSTROPHIC NAILS, ANY NUMBER
4	

#### **CPT/HCPCS Modifiers**

#### **Group 1 Paragraph:**

One of the modifiers listed below must be reported with codes 11055, 11056, 11057, 11719, G0127, and with codes 11720 and 11721 when the coverage is based on the presence of a qualifying systemic condition EXCEPT where the patient has evidence of neuropathy, but no vascular impairment, for which class findings modifiers are not required:

Modifier Q7: One (1) Class A finding Modifier Q8: Two (2) Class B findings Modifier Q9: One (1) Class B finding and two (2) Class C findings.

Group 1 Codes: (3 Codes)

CODE	DESCRIPTION
Q7	ONE CLASS A FINDING
Q8	TWO CLASS B FINDINGS
Q9	ONE CLASS B AND TWO CLASS C FINDINGS

#### **ICD-10-CM Codes that Support Medical Necessity**

#### **Group 1 Paragraph:**

#### Codes 11055, 11056, 11057, 11719, 11720, 11721 and G0127

**Group 1 Codes:** (216 Codes)

CODE	DESCRIPTION
A30.0	Indeterminate leprosy
A30.1	Tuberculoid leprosy
A30.2	Borderline tuberculoid leprosy
A30.3	Borderline leprosy
A30.4	Borderline lepromatous leprosy
A30.5	Lepromatous leprosy
A30.8	Other forms of leprosy
A50.41	Late congenital syphilitic meningitis
A50.42	Late congenital syphilitic encephalitis
A50.43	Late congenital syphilitic polyneuropathy

K90.2*	Blind loop syndrome, not elsewhere classified
K90.3*	Pancreatic steatorrhea
K91.2*	Postsurgical malabsorption, not elsewhere classified
M05.471*	Rheumatoid myopathy with rheumatoid arthritis of right ankle and foot
M05.472*	Rheumatoid myopathy with rheumatoid arthritis of left ankle and foot
M05.571*	Rheumatoid polyneuropathy with rheumatoid arthritis of right ankle and foot
M05.572*	Rheumatoid polyneuropathy with rheumatoid arthritis of left ankle and foot
M05.771*	Rheumatoid arthritis with rheumatoid factor of right ankle and foot without organ or systems involvement
M05.772*	Rheumatoid arthritis with rheumatoid factor of left ankle and foot without organ or systems involvement
M05.871*	Other rheumatoid arthritis with rheumatoid factor of right ankle and foot
M05.872*	Other rheumatoid arthritis with rheumatoid factor of left ankle and foot
M06.071*	Rheumatoid arthritis without rheumatoid factor, right ankle and foot
M06.072*	Rheumatoid arthritis without rheumatoid factor, left ankle and foot
M06.871*	Other specified rheumatoid arthritis, right ankle and foot
CODE	DESCRIPTION
M06.872*	Other specified rheumatoid arthritis, left ankle and foot
M30.0	Polyarteritis nodosa
M30.2	Juvenile polyarteritis
M30.8	Other conditions related to polyarteritis nodosa
M31.4	Aortic arch syndrome [Takayasu]
M31.7	Microscopic polyangiitis

CODE	DESCRIPTION
M34.83	Systemic sclerosis with polyneuropathy
N18.1*	Chronic kidney disease, stage 1
N18.2*	Chronic kidney disease, stage 2 (mild)
N18.30*	Chronic kidney disease, stage 3 unspecified
N18.31*	Chronic kidney disease, stage 3a
N18.32*	Chronic kidney disease, stage 3b
N18.4*	Chronic kidney disease, stage 4 (severe)
N18.5*	Chronic kidney disease, stage 5
N18.6*	End stage renal disease

#### **Group 1 Medical Necessity ICD-10-CM Codes Asterisk Explanation:**

#### Group 2 Paragraph:

Refer to Group 3 for the secondary ICD-10-CM codes required for coverage for codes 11719, 11720, 11721 and G0127.

#### Group 2 Codes: (3 Codes)

CODE	DESCRIPTION
B35.1	Tinea unguium
L60.2	Onychogryphosis
L60.3	Nail dystrophy

#### **Group 3 Paragraph:**

For treatment of mycotic nails, or onychogryphosis, or onychauxis (codes 11719, 11720, 11721 and G0127), in the absence of a systemic condition or where the patient has evidence of neuropathy, but no vascular impairment, for which class findings modifiers are not required, ICD-10 CM code B35.1, L60.2 or L60.3 respectively, must be reported as primary, with the diagnosis representing the patient's symptom reported as the secondary ICD-10-CM code. Refer to the "Indications and Limitations of Coverage and/or Medical Necessity" section of the related LCD.

Secondary Diagnoses to be reported with B35.1, L60.2 or L60.3 for treatment of mycotic nails, onychogryphosis, and onychauxis to indicate medical necessity:

#### **Group 3 Codes:** (16 Codes)

CODE	DESCRIPTION
L02.611	Cutaneous abscess of right foot

<sup>\*</sup> For these diagnoses, the patient must be under the active care of a doctor of medicine or osteopathy (MD or DO) for the treatment and/or evaluation of the complicating disease process during the six (6) month period prior to the rendition of the routine-type service.

CODE	DESCRIPTION	
L02.612	Cutaneous abscess of left foot	
L03.031	Cellulitis of right toe	
L03.032	Cellulitis of left toe	
L03.041	Acute lymphangitis of right toe	
L03.042	Acute lymphangitis of left toe	
L60.0	Ingrowing nail	
M79.671	Pain in right foot	
M79.672	Pain in left foot	
M79.674	Pain in right toe(s)	
M79.675	Pain in left toe(s)	
R26.0	Ataxic gait	
R26.1	Paralytic gait	
R26.2	Difficulty in walking, not elsewhere classified	
R26.81	Unsteadiness on feet	
R26.89	Other abnormalities of gait and mobility	

#### **Group 4 Paragraph:**

#### Codes 11055, 11056, 11057, 11719, 11720, 11721 and G0127

The ICD-10-CM codes below represent those diagnoses where the patient has evidence of neuropathy, but no vascular impairment, for which class findings modifiers are not required.

#### **Group 4 Codes:** (98 Codes)

CODE	DESCRIPTION	
A30.0	Indeterminate leprosy	
A30.1	Tuberculoid leprosy	
A30.2	Borderline tuberculoid leprosy	
A30.3	Borderline leprosy	
A30.4	Borderline lepromatous leprosy	
A30.5	Lepromatous leprosy	
A30.8	Other forms of leprosy	
A50.43	Late congenital syphilitic polyneuropathy	
A50.45	Juvenile general paresis	
A52.11	Tabes dorsalis	

CODE	DESCRIPTION	
A52.13	ate syphilitic meningitis	
A52.14	Late syphilitic encephalitis	
A52.15	Late syphilitic neuropathy	
A52.16	Charcot's arthropathy (tabetic)	
A52.17	General paresis	
A52.19	Other symptomatic neurosyphilis	
D81.818	Other biotin-dependent carboxylase deficiency	
E08.41*	Diabetes mellitus due to underlying condition with diabetic mononeuropathy	
E08.42*	Diabetes mellitus due to underlying condition with diabetic polyneuropathy	
E08.43*	Diabetes mellitus due to underlying condition with diabetic autonomic (poly)neuropathy	
E08.44*	Diabetes mellitus due to underlying condition with diabetic amyotrophy	
E08.49*	Diabetes mellitus due to underlying condition with other diabetic neurological complication	
E08.610*	Diabetes mellitus due to underlying condition with diabetic neuropathic arthropathy	
E09.42*	Drug or chemical induced diabetes mellitus with neurological complications with diabetic polyneuropathy	
E09.49*	Drug or chemical induced diabetes mellitus with neurological complications with other diabetic neurological complication	
E09.610*	Drug or chemical induced diabetes mellitus with diabetic neuropathic arthropathy	
E10.41*	Type 1 diabetes mellitus with diabetic mononeuropathy	
E10.42*	Type 1 diabetes mellitus with diabetic polyneuropathy	
E10.43*	Type 1 diabetes mellitus with diabetic autonomic (poly)neuropathy	
E10.44*	Type 1 diabetes mellitus with diabetic amyotrophy	
E10.49*	Type 1 diabetes mellitus with other diabetic neurological complication	
E10.610*	Type 1 diabetes mellitus with diabetic neuropathic arthropathy	
E11.41*	Type 2 diabetes mellitus with diabetic mononeuropathy	
E11.42*	Type 2 diabetes mellitus with diabetic polyneuropathy	
E11.43*	Type 2 diabetes mellitus with diabetic autonomic (poly)neuropathy	
E11.44*	Type 2 diabetes mellitus with diabetic amyotrophy	
E11.49*	Type 2 diabetes mellitus with other diabetic neurological complication	
E11.610*	Type 2 diabetes mellitus with diabetic neuropathic arthropathy	
E13.42*	Other specified diabetes mellitus with diabetic polyneuropathy	

CODE	DESCRIPTION	
E13.49*	Other specified diabetes mellitus with other diabetic neurological complication	
E13.610*	Other specified diabetes mellitus with diabetic neuropathic arthropathy	
E51.11*	Dry beriberi	
E51.12*	Wet beriberi	
E52*	Niacin deficiency [pellagra]	
E53.1*	Pyridoxine deficiency	
E53.8*	Deficiency of other specified B group vitamins	
E75.21	Fabry (-Anderson) disease	
E75.22	Gaucher disease	
E75.240	Niemann-Pick disease type A	
E75.241	Niemann-Pick disease type B	
E75.242	Niemann-Pick disease type C	
E75.243	iemann-Pick disease type D	
E75.244	Niemann-Pick disease type A/B	
E75.248	Other Niemann-Pick disease	
E77.0	Defects in post-translational modification of lysosomal enzymes	
E77.1	Defects in glycoprotein degradation	
E77.8	Other disorders of glycoprotein metabolism	
E85.1	Neuropathic heredofamilial amyloidosis	
G04.1	Tropical spastic paraplegia	
G11.10	Early-onset cerebellar ataxia, unspecified	
G11.11	Friedreich ataxia	
G11.19	Other early-onset cerebellar ataxia	
G12.21	Amyotrophic lateral sclerosis	
G13.0*	Paraneoplastic neuromyopathy and neuropathy	
G13.1*	Other systemic atrophy primarily affecting central nervous system in neoplastic disease	
G35*	Multiple sclerosis	
G60.0	Hereditary motor and sensory neuropathy	
G60.1	Refsum's disease	
G60.2	Neuropathy in association with hereditary ataxia	
G60.3	Idiopathic progressive neuropathy	

CODE	DESCRIPTION	
G60.8	Other hereditary and idiopathic neuropathies	
G61.0*	Guillain-Barre syndrome	
G61.1*	Serum neuropathy	
G61.81	Chronic inflammatory demyelinating polyneuritis	
G61.89	Other inflammatory polyneuropathies	
G62.0*	Drug-induced polyneuropathy	
G62.1*	Alcoholic polyneuropathy	
G62.2*	Polyneuropathy due to other toxic agents	
G62.81	Critical illness polyneuropathy	
G62.82*	Radiation-induced polyneuropathy	
G62.89	Other specified polyneuropathies	
G63	Polyneuropathy in diseases classified elsewhere	
G64	Other disorders of peripheral nervous system	
G65.0	Sequelae of Guillain-Barre syndrome	
G65.1	Sequelae of other inflammatory polyneuropathy	
G65.2	Sequelae of toxic polyneuropathy	
G70.1*	Toxic myoneural disorders	
G73.3*	Myasthenic syndromes in other diseases classified elsewhere	
G82.21	Paraplegia, complete	
G82.22	Paraplegia, incomplete	
G82.51	Quadriplegia, C1-C4 complete	
G82.52	Quadriplegia, C1-C4 incomplete	
G82.53	Quadriplegia, C5-C7 complete	
G82.54	Quadriplegia, C5-C7 incomplete	
G95.0	Syringomyelia and syringobulbia	
M05.571*	Rheumatoid polyneuropathy with rheumatoid arthritis of right ankle and foot	
M05.572*	Rheumatoid polyneuropathy with rheumatoid arthritis of left ankle and foot	
M34.83	Systemic sclerosis with polyneuropathy	

#### **Group 4 Medical Necessity ICD-10-CM Codes Asterisk Explanation:**

<sup>\*</sup> For these diagnoses, the patient must be under the active care of a doctor of medicine or osteopathy (MD or DO) for the treatment and/or evaluation of the complicating disease process during the six (6) month period prior to the rendition of the routine-type service.

#### ICD-10-CM Codes that DO NOT Support Medical Necessity

N/A

#### **ICD-10-PCS Codes**

N/A

#### **Additional ICD-10 Information**

N/A

#### **Bill Type Codes**

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the article does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the article should be assumed to apply equally to all claims.

N/A

#### **Revenue Codes**

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the article, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the article should be assumed to apply equally to all Revenue Codes.

# **Revision History Information**

REVISION HISTORY DATE	REVISION HISTORY NUMBER	REVISION HISTORY EXPLANATION
08/04/2022	R4	Clarifying information has been added to the Coding Guidelines and Documentation Requirements sections to reflect new testing technology and to specify clear medical documentation needed to justify services and for review of claims.

REVISION HISTORY NUMBER	REVISION HISTORY EXPLANATION	
	The active care requirement in ICD-10 coding sections for systemic conditions has been revised to remove "qualified non-physician practitioners" to conform with IOM 100-02, <i>Medicare Benefit Policy Manual</i> , Chapter 15, section 290.D.	
R3	Based on annual ICD-10 updates for 2022, ICD-10 code E75.244 was added to Group 1 and Group 4 covered diagnoses.	
R2	Based on annual ICD-10 updates for 2021, ICD-10 codes G11.1 and N18.3 were deleted and replaced by G11.10, G11.11, G11.19 for Groups 1 and 4, and N18.30, N18.31 and N18.32 for Group 1 covered diagnoses.	
R1	Article revised to clarify coverage for debridement of mycotic nails and to remove the following documentation requirements:	
	For debridement of mycotic nails, each service encounter, the medical record should contain a description of each nail which requires debridement. This should include, but is not limited to, the size (including thickness) and color of each affected nail. In addition, the local symptomatology caused by each affected nail resulting in the need for debridement must be documented. For CPT code 11720 documentation of at least one nail will be accepted. For CPT code 11721 complete documentation must be provided for at least 6 nails.	
	R3
