THANK YOU TO OUR SPONSORS

Sponsorships do not support the
educational activities of NY23

The Foundation for Podiatric Medicine is thrilled to be back at The NYC Marriott Marquis in the heart of Times Square for The NY23 Clinical Conference and Exhibition. Attendees finally have the chance to eat in the best restaurants, enjoy Broadway performances and stop in on all the latest attractions NYC has to offer. Most importantly, we can reconnect with each other while getting up to 26 CMEs, and learning about the most cutting-edge surgeries, treatments, and research. For the first time in three years, we can walk the best Exhibit Hall in the industry at NY23 showcasing the latest products and services. I am so thrilled to be able to connect with new vendors and old vendors who I haven't seen in years.

This year, The Foundation will be hosting the 6th Annual Transatlantic Wound Care Seminar. This seminar only takes place every other year in the USA and will feature the latest research, studies and podiatric practices coming from our colleagues at the University of Galway in Ireland. NY23 will also feature a Friday afternoon panel in collaboration with American Association for Women Podiatrists that discusses differences in treatment based on gender. This is such an important topic that we all face as practitioners. Don't miss the panel!

I want to thank our amazing sponsors and encourage you to do so, too. Without them, this event would truly not be possible. There are many opportunities where you can thank them and show your support. Make sure you check out all of the sponsored breakfasts, lunches and receptions going on throughout NY23.

Don't forget to download the NY23 mobile app by following the instructions on conference signage. It has the full program and gives you the chance to see who is here and connect with other attendees and vendors.

I am so excited to be here and have the opportunity to connect and learn with you all again! I know that NY23 is sure to deliver!

William D. Spielfogel, DPM
President, Foundation for Podiatric Medicine

CONTINUING EDUCATION

The Foundation for Podiatric Medicine is approved by the Council on Podiatric Medical Education as a provider of continuing education in podiatric medicine. The Foundation for Podiatric Medicine has approved this activity for a maximum of 26.0 continuing education contact hours (CECH)*.

In accordance with the requirements of the Council on Podiatric Medicine, the Foundation is required to monitor educational session attendance for verification of CECH.

*This number is based on attendance at the two pre-conference seminars, Saturday workshop, and all general lectures.

CECH Sign-in/Scanning Policy

Badges are bar coded with your personal information and must be scanned.

To ensure that the Foundation continues to provide you with a meaningful educational program, all attendees will be required to complete an electronic meeting evaluation in order to receive a CECH certificate and verification form. This form will be distributed via email following the conference. By registering, you are consenting to fill out an electronic evaluation survey.

Each registrant is responsible for reporting his or her attendance to all appropriate boards and agencies requiring continuing education. Credits may be registered with state boards by providing them with a copy of your CECH certificate.

Meals

Breakfast and lunch are designed to be free time for attendees to visit with exhibitors or attend ancillary sessions. Educational and non-educational sponsored lunches may be available each day for pre-registration. Please check www.nyspma.org/ny23 for updates and to register online.

Sleeping Rooms: \$230.00 s/d + tax

A block of sleeping rooms has been reserved at the New York Marriott Marquis for NY23 attendees. Rooms may be reserved until Tuesday, December 27, 2022 or until block is filled. Mention New York Podiatric Clinical Conference to receive our special conference rate.

NOTICE: UNAUTHORIZED COMPANIES SOLICITING HOUSING FOR THE NY23 Clinical Conference and Exhibition (Also known as "Room Block Pirates")

It has come to our attention that unauthorized companies are contacting NY23 Clinical Conference attendees, offering hotel reservations for our events.

Please be advised that the only company authorized to arrange hotel reservations for our meetings are the NY Marriott Marquis through channels provided exclusively from the Foundation for Podiatric Medicine publications and emails. We do not solicit reservations by phone and will never contact you that way, or via fax form.

Reserve online:

<https://book.passkey.com/e/50391042>

Reserve by phone: 212-398-1900. Mention NY Podiatric Clinical Conference when you call to book inside the conference block.

GUESTS

APMA & NYSPPMA members may register one family member guest. Guests may not be DPMs or office staff. The Foundation reserves the right to cancel guest registrations for anyone not meeting the criteria.

Contact Allison Hogan | ahogan@nyspma.org

Conference Registration

Registration fees are refundable, minus a \$79.00 administrative fee, when requested in writing on or before Friday, December 16, 2022. Registration fees are not refundable after this date. Residents must provide proof of residency onsite in order to print their badge. Students must bring ID. Please contact TMI at 332-910-9600 with registration questions. All members must be either paid in full for 22-23 dues or must be on auto pmt to register at the NYSPPMA membership rate for the NY23 Clinical Conference.

This year, registrations will only be accepted online. If you are having difficulty registering online, please call the NYSPPMA office.

Conference Confirmation

Confirmation letters will be e-mailed following receipt of your registration. An email address will be required for registration. All communication will take place via email.

CONFERENCE BADGES

Conference badges may be printed onsite at the conference using the bar code included on your confirmation email or by looking up your last name at the badge kiosks. No badges or materials will be mailed.

Nondiscrimination

No person shall be denied registration or participation in any continuing education program provided by this Foundation for reasons of race, religion, sex, national origin or physical ability.

WEATHER

The Foundation for Podiatric Medicine hopes to provide a safe educational experience for all its attendees. In the event of inclement weather, attendees are encouraged to make the best decision related to travel for themselves. The Foundation will scan according to what is published in the onsite brochure.

11:45am–12:45pm	Lunch on Your Own
12:45–1:15pm	At-Risk Foot Care Audits: An In-Depth Look at One Audit Paul Kesselman, DPM
1:15–1:45pm	Telehealth and the End of the PHE Paul Kesselman, DPM
1:45–2:00pm	Q&A
2:00–2:15pm	Break
2:15–3:00pm	Coding, Compliance, and Documentation for Skin Substitute Services Jeffrey Lehrman, DPM, CPC
3:00–3:45pm	DME Update, 2023 Paul Kesselman, DPM
3:45–4:00pm	Q&A

Educational Objectives

At the conclusion of this program, attendees will be able to:

- list four CPT® codes used for ulcer debridement;
- differentiate between the depth of an ulcer and the deepest depth of an ulcer debrided;
- list two social determinants of health;
- list three types of Von Willebrand disease;
- understand the latest Federal and State updates to the durable medical equipment (DME) program in 2023;
- how to understand and respond to DME audits and What you can take home from the DME audits;
- understand changes to the upcoming 2023 Merit-based Incentive Payment System (MIPS);
- identify what measures for the 2023 MIPS participation year are best suited for your patients and practice;
- learn about and understand appropriate coding and documentation for at-risk routine foot care;
- understand how to respond appropriately and comply with audit requirements to avoid painful penalties;
- differentiate between the CPT® codes used for skin substitute application to the foot and skin substitute application to the leg;
- differentiate between ulcer excision and ulcer debridement;
- understand what the end of the public health emergency (PHE) means for the future of telehealth in your practice;
- understand telehealth codes and using them appropriately in your practice;
- list the steps required to perform an intercuneiform arthrodesis;
- differentiate between CPT® coding when one midtarsal joint is fused versus when multiple midtarsal joints are fused;
- list the two differences between the 78 and 79 Modifiers;
- cite one example of proper use of the 58 Modifier;
- list three E&M types whose level selection methodology changed January 1, 2023; and
- list three actions that may count toward “total time” when choosing a nursing facility E&M level based on total time.

BECOME AN NYSPMA MEMBER TODAY

The New York State Podiatric Medical Association (NYSPMA) is a tax-exempt not-for-profit, voluntary professional association uniting three of every four doctors of podiatric medicine in New York State. NYSPMA consists of 13 geographically based sub-groups called divisions and is the largest statewide component of the American Podiatric Medical Association (APMA) and its affiliated national network of certifying boards and professional colleges. NYSPMA is made up of dedicated volunteer podiatrists who serve as officers, board members, and committee members. Established in 1895, we were the first organization of its kind in America. We are a strong voice in the state legislature on insurance affairs, medical and hospital practice, managed care, scientific affairs, and public health.

JOIN NOW

Membership in your state and national professional associations strengthens your practice and contributes to the current state of podiatry as well as the future of the profession.

Contact Rashmi Doshi at rdoshi@nyspma.org to become a member today. Join by December 13th and attend the 2023 Clinical Conference for free as a member.

HOW DO WE SERVE OUR MEMBERS?

• Continuing Medical Education Credits

Available at our annual clinical conference, as well as division seminars throughout the state.

• Clinical Conference

Members attend all three days of lectures free of charge, as well as receive discounts on additional seminars and programs.

• Insurance Intervention and Representation

A committee of knowledgeable podiatrists and insurance consultants are available to assist members with insurance issues.

• Political Action

Member participation under the guidance of one of New York's top government affairs firms.

• Communications

NYSPMA's newsletter, The New York Podiatrist, as well as its website, www.nyspma.org, provide valuable and pertinent information to members on every aspect of their practice.

• Legal Resources

Members have the ability to enroll in the Podiatry Protection Program, a valuable program that provides legal coverage on a variety of issues, as well as access to a continuously updated Legal Resource Manual.

New York Podiatry Political Action Committee Help Support Those Who Support Podiatry

What is NYPPAC?

The New York State Podiatry Political Action Committee (NYPPAC) is a nonprofit, bipartisan fundraising committee through which podiatrists support state candidates who champion podiatric medicine's issues in New York.

Because of the efforts of NYPPAC and its parent organization, the American Podiatric Medical Association (NYSPMA), the profession has gained a state and national presence as a political force. NYPPAC neither determines the issues to be addressed on behalf of the profession, nor lobbies on those issues. That is the role of NYSPMA's Legislative Action Committee, Board of Trustees, and lobbying firm.

NYPPAC's role is to support candidates seeking office in the NY Assembly and Senate. The only other legal means for such support is through contributions made directly to a candidate by an individual.

Who Receives NYPPAC Support?

Funds collected by NYPPAC are in turn contributed to statewide candidates who are selected without regard to political party. Only candidates seeking a seat in the NY Assembly or Senate may be recipients of NYPPAC's funds. Candidate support is based on:

1. A candidate's position on issues—Does the incumbent candidate support podiatric medicine's issues? Is he or she accessible to NYSPMA members and lobbyists? If a candidate is a non-incumbent, was he or she supportive in the state or local governing structure?
2. A candidate's committee appointment—As an incumbent, does the candidate serve on a committee that has jurisdiction over state health policy?
3. NYSPMA member/state component endorsement—Does the candidate have the backing of NYSPMA members? This criterion is required for support of non-incumbents.

Who May Give to NYPPAC?

Members and staff of NYSPMA, their family members, and members and staff of NYSPMA's component divisions may contribute to NYPPAC. Contributions must be from personal funds if they are to be used for contributions to candidates for federal office. Contributions to NYPPAC must be voluntary and do not qualify for an income tax deduction.

APPROVAL STATEMENT

The Foundation for Podiatric Medicine is approved by the Council on Podiatric Medical Education as a provider of continuing education in podiatric medicine. The Foundation has approved this activity for 26.0 continuing education contact hours (CECH). This number is based on attendance at all general lectures, the Saturday workshop, and the two pre-conference sessions on Thursday evening.

CECH SCANNING

In accordance with the requirements of the Council on Podiatric Medicine, The Foundation is required to monitor session attendance for verification of CECH. Attendance and earned CECH will be recorded electronically by scanning the barcode on the back of your badge at the times/locations listed below.

PLEASE NOTE

To ensure that the Foundation continues to provide you with a meaningful educational program, all attendees will be required to complete an electronic meeting evaluation in order to receive a CECH certificate and verification form. This form will be distributed via email following the conference. Each registrant is responsible for reporting his or her attendance to all appropriate boards and agencies requiring continuing education. Credits may be registered with state boards by providing them with a copy of your CECH certificate. NYSPMA members will not be eligible to receive their CECH Certificate unless their memberships are current.

Moderator: Jacqueline Prevete, DPM

Panelists: Michael Loshigian, DPM; Giannin Perez, DPM;
Scott Gawlik, DPM; Mudasser Javed, DPM; Matthew
Feldman, JD; Maddy Walkner and Arnie Tannen

Young Member's Institute: Complications Seminar for Residents & Fellows

10:30am-3:00pm

Empire Complex, 7th Floor

10:30 – 11:00am

**Respiratory Failure and Acute Pancreatitis with Septic
Shock Resulting in Critical Limb Ischemia from Pressors**

Presenters: Cindel Harris, DPM, PGY-3; Jerisan
Jeganathan, DPM, PGY-1; Monica Kelley, DPM, PGY-1
Residency Program: Mount Sinai South Nassau

11:00am – 11:30am

Non-Unions Involving 5th Metatarsal Fractures

Presenters: Dolly Dua, DPM, PGY-4;
Jonathan Fung, DPM, PGY-3; Craig Carter, DPM, PG-4;
Emma Otieno, DPM, PGY-3
Residency Program: St. Barnabas Hospital

11:30am – 12:00pm

Failure of a Metallic Hemi Implant for a Hallux Limitus

Presenters: Samantha Young, DPM, PGY-3;
Tariq Rasheed, DPM, PGY-2
Residency Program: NY Community Hospital

12:00 – 12:45pm BREAK

12:45 – 1:15pm

**Management of Complication Open Calcaneal Fracture:
OM, Diabetes, Obesity, Oh My!**

Presenters: Elizabeth Franger, DPM, PGY-3;
William Etts, DPM, PGY-3
Residency Program: Good Samaritan University Hospital

1:15 – 1:45pm

**Management of Post-Operative Infection Following
Minimally Invasive Bunionectomy**

Presenters: Junaaid Akbar, DPM, PGY-1;
Sharaara Rahman, MS, DPM, PGY-3
Residency Program: Lenox Hill Hospital

1:45 – 2:15pm

Insidious Case of Red Hot Swollen Ankle

Presenters: Sherwin Shaju, DPM, PGY-2;
Georgia Xenophontos, DPM, PGY-1
Residency Program: Long Island Jewish/North Shore

2:15-2:45pm

Charcot Reconstruction

Presenters: Robert Karman, DPM, Navdeep Bains, DPM
Residency Program: NY Presbyterian-Queens

2:45 – 3:15pm

**Removal of Hardware of Intramedullary Rod Secondary
to Infection Followed by Implantation of Antibiotic-Coated
Intramedullary Rod**

Presenters: Lina Dobronevsky, DPM, PGY-1;
Nadia Hameed, DPM, PGY-2; Sriya Babu, DPM, PGY-3;
Kaitlin Kingston, DPM, PGY-1;
Caitlyn Minihane, DPM, PGY-2; Yun Kim, DPM, PGY-2;

NYSPMA President's Happy Hour

**Friday, January 20
6:30-7:45pm**

Sky Lobby, 16th Floor

This is a ticketed event for NYSPMA members, capacity is limited. After obtaining your official conference badge, members may pick up their event ticket at the BakoDx booth #1001.

NY23 Sponsored Events – Meal Symposia and Hands-On Workshops

To complement the general lectures and enhance the overall educational impact and attendee experience at NY23, we are pleased to offer complimentary breakfast and lunch industry-supported symposia, Innovation Theaters, and hands-on conference workshops. Please note that breakfast and lunch symposia are ticketed events. NY23 Attendees may collect their ticket from the sponsor's booth. No CECH are available for these presentations

Friday, January 20

12:00-1:00 pm

Non-CECH Lunch

Majestic Complex, 6th Floor

Learn about an advancement in treating patients with uncontrolled gout

Speaker: Dr John Cozzarelli, DPM

This program will examine 1) uncontrolled gout as a systemic, progressive disease with serious consequences, 2) a safe and effective treatment option, and 3) best practices for referring patients early in the course of disease

This lecture is sponsored by

Tickets may be obtained from booth 1203

Saturday, January 21

7:00am – 8:00am

Non-CECH Breakfast

Majestic Complex, 6th Floor

Fighting Fire with Fire!

Join us for a Spicy Breakfast and a Conversation about Care Challenges in Treating Painful Diabetic Neuropathy of the Feet

Moderator: Bryan Markinson, DPM

Speakers: Michael King, DPM; Adam Teichman, DPM

Discover a different way to treat painful diabetic peripheral neuropathy (DPN) of the feet. This interactive session is designed to facilitate an open conversation between you and your peers, while reviewing case based real-world evidence surrounding available treatment options for your patients suffering from painful DPN of the feet.

This lecture is sponsored by

Tickets may be obtained from booth 605

12:00-1:00 pm

Non-CECH Lunch

Odets, 4th Floor

Stopping Diabetic Foot Amputations and Chronic Wounds by Using TW02 Therapy

Speaker: Dr. Matt Regulski, DPM

In this session we will discuss the opportunity that we now have to significantly decrease the rate of amputations in our patients with diabetic foot ulcers. For the first time, we have the ability to heal these wounds with fewer amputations and a decrease in recurrences. All chronic wounds can be helped by using compression, humidification, and oxygen under pressure while the patient is at home. This adjunctive therapy to good standard wound care can change the lives of so many individuals in all social settings.

This lecture series is sponsored by

Tickets may be obtained from booth B3

Saturday, January 21

12:00-1:00 pm

Non-CECH Lunch

Majestic Complex, 6th Floor

A Scientifically Designed Topical Treatment for Toenail Onychomycosis, Jublia® (efinaconazole) topical solution, 10%

Onychomycosis is a fungal infection that warrants intervention. This program will review considerations in Onychomycosis treatment and review Therapeutic Recommendations.

This lecture series is sponsored by

Tickets may be obtained from booth 1113/1115

CECHs are not provided for these presentations.

Hands-On Workshops

Saturday, January 21

10:30am-12:00pm

O'Neill, 4th Floor

A Hands-On Exploration of Placental Based Allografts From Womb to Wound

Attendees will experience a live demonstration of placental tissue dissection highlighting the key steps of the MIMEDX PURION® process, including tissue separation, cleansing and re-lamination. Following the dissection, attendees will learn about clinical use examples and practice appropriate application technique including adequate debridement, tissue application, and covering.

Speakers: Matthew J. Davis, BSN, RN, CWON, CFCN - Medical Science Liaison, MIMEDX Jenny Luck - Product Manager, MIMEDX

- 9:30am - 1:00pm

CONTACT nyclinicalconference@nyspma.org

- Review the current thoughts on pathophysiology of Charcot joint disease
- Discuss the role of Achilles tendon pathophysiology in Charcot joint disease
- Present the effects of immobilization on bone metabolism and vascular flow in Charcot's joint disease
- Examine the role of biphosphonate therapy and calcitonin in the treatment CJD
- Examine the role of midfoot reconstruction and the hardware used in reconstruction
- Examine the role of hindfoot reconstruction and its potential for failure and attain knowledge of fixation devices
- Anterior bone plates in arthrodesis of the ankle joint
- Present the basic principles for successful arthrodesis of the ankle joint.
- Review the bio mechanical advantages of anterior bone plating for ankle joint fusion
- Present my experience utilizing anterior bone plates to augmentation of ankle joint arthrodesis
- Examine the relevant literature and clinical studies for the use of anterior bone plates for Ankle Joint Arthrodesis
- Present current accepted guidelines for the use of oral antibiotics in the treatment of osteomyelitis
- Familiarize the attendee with current studies utilizing oral antibiotics for the treatment of osteomyelitis
- Present treatment regimens for the use of oral antibiotics for the treatment of osteomyelitis.
- Review the indications for exostosis excision in the treatment of Charcot joint disease
- Examine case studies of exostosis excision in the treatment of Charcot's joint disease ulceration
- Present guidelines for determination of exostosis excision versus stabilization/reconstruction of Shako's joint disease
- Review the definition of growing pains
- Present the clinical evaluation of a pediatric patient with suspected growing pains
- Review the differential diagnosis of growing pains including juvenile arthritic syndromes, inflammatory arthritis, osteochondrosis, infection
- Review the Salter-Harris classification system of pediatric ankle fractures
- Examine case studies in the evaluation and treatment of pediatric foot and ankle fractures
- Examine special fractures in the pediatric ankle including Tillaux fracture and triplane fracture
- Review current deficiencies in categorization of flat foot deformity
- Familiarize the attendee with the new classification system for pronation deformity
- Present practical examples utilizing the new classification system for pronation deformity
- Examine the definition of unnecessary surgery
- He sent strategies to reduce the incidence of unnecessary surgical procedures
- Present examples of unnecessary surgical procedures in foot and ankle surgery
- Examine the role of aging as an operative risk in the older surgeon
- Examine reasons for the reluctance of older surgeons to adopt new techniques
- Examine the question of when a surgeon should retire
- Present current indications for arthroereisis in pronation limiting surgery
- Review the relevant literature regarding arthroereisis in pronation limiting surgery
- Examine the question of potential overuse in the utilization of arthroereisis in pronation limiting surgery
- Examine the ethical conflict between industry and the podiatric surgeon
- Present a discussion of message to resolve ethical conflicts between industry in the podiatric surgeon
- Examine the role of industry in Podiatric education at the post graduate level
- Examine the role of Hyperbaric Oxygen Therapy in healing of difficult wounds
- Examine the role anatomy of biofilm and how to assess the biofilm
- Examine the role of early revascularization and how it can improve outcomes in patients with PAD
- Examine the advances in profusion in getting difficult wounds to heal
- Examine the role of skin flaps in diabetic patients
- Understanding reimbursement formulas of the RVU
- Examine the role of surgery in Weber B fractures
- Examine the role of posterior malleolar fractures and attain knowledge of when to operate on them
- Examine the role of the interfragmentary screw in ankle fractures
- Examine the management of surgical complications and infections
- Examine self-awareness of when one should stop performing surgery and its legal ramifications
- Examine person centered care approach to deliver high quality care
- Examine motor neuropathy in type 2 diabetics
- Examine the role of the podiatrist in screening for atrial fibrillation
- Examine the well being of diabetics living with ulcers of the foot
- Examine the podiatrist role in serving the homeless
- Examine the role of digital implants
- Examine the role of arthrodesis versus implant for first MTPJ pathology
- Examine the trends in implant designs in the foot and ankle
- Examine the role of TAR versus arthrodesis in ankle arthritis
- Examine the role of thermal imaging in the diabetic foot
- Examine the use of foot pressure to prevent injury and infection
- Examine the role of the podiatrist in preventing and treating diabetic foot ulcers
- Examine the impact of multiple sclerosis on the lower extremity
- Examine the parental role in down syndrome patients with flatfeet
- Examine the role of early diagnosis of malignancies of the foot and leg
- Examine the institutions in the podiatric profession
- Examine the role of casting techniques for orthotics and the potential affect on outcomes
- Examine when an ulcer may be more than an ulcer and when to biopsy
- Examine the role of the twisted plate theory and its role in orthotic control
- Examine the innovations of vascular revascularization
- Examine Group B Streptococcus and penicillin tolerance
- Examine the role of the Syndesmosis of the ankle
- Examine the early ambulation in Charcot foot surgery
- Examine the triplane correction of lengthening the lateral column
- Examine the use of induced membrane (Masquelet) technique in forefoot surgery
- Examine the role of performing a first MTPJ arthrodesis and its effect on IMA correction
- Explore the role of biopsy for suspected skin and soft tissue lesions and the issue of malpractice when a malignant lesion is misidentified
- Describe a case a fellow podiatrist experienced including taking the case to trial
- Provide understanding of the different components of a professional liability case and how they may be handled

SCIENTIFIC COMMITTEE

William D. Spielfogel, DPM, Scientific Chair
Charles M. Lombardi, DPM, Lecture Chair
Daniel B. Keating, DPM, Workshop Chair
Lawrence A. Santi, DPM,
Administrative Officer of Continuing Ed.

MISSION STATEMENT

The Foundation for Podiatric Medicine, a nonprofit 501(c)(3) organization, was established in 1986. The mission of the Foundation for Podiatric Medicine is to offer continuing medical education, professional development and public information services.

EDUCATIONAL MISSION STATEMENT

The scientific sessions of the Foundation for Podiatric Medicine's 2023 Podiatric Clinical Conference are designed with the educational goal of presenting balanced academic discussions for the primary care podiatric physician and also to initiate education in the areas of diagnosis and management of ankle pathology. Providing cutting-edge educational programs in various learning formats, the conference offers a forum for dialogue about the vital educational and clinical information that is crucial to all podiatrists, ensuring professional development that enhances quality patient care and advances the profession.

The Foundation provides an opportunity for the learner with a disability who may require accommodations to participate fully to indicate such a status by contacting the Foundation for Podiatric Medicine at 212-996-4400.

NON-DISCRIMINATION STATEMENT

No person shall be denied registration or participation in any continuing education program provided by this Foundation for reasons of race, religion, sex, national origin or physical ability.

DISCLOSURE STATEMENT

The Foundation for Podiatric Medicine ensures balance, independence, objectivity, and scientific rigor in all individually provided or jointly provided educational programs. All individuals who have influence over the content of the educational activity (i.e., instructors, course director(s), planning committee, faculty, etc.) have no financial conflicts of interest that may lead to any biases in the educational content presented from The Foundation for Podiatric Medicine.

Accufix Surgical Inc.

226

Accufix Surgical is proud to introduce the new revolutionary MTP resurfacing Hemi implant, the Accu-Joint™. The patented reamers remove only 1-3mm of diseased cartilage/bone while creating an inset for the 1mm thick implant. The Accu-Joint™ is sized 10-15% smaller than the joint surface, ensuring weight bearing on the surrounding bone, not the implant. Accufix Surgical finally has a solution for active patients who do not want a fusion.

385 Main Street, Suite 5
West Haven, CT 06516
www.accufixsurgical.com

Acera Surgical Inc

613

Restrata is a fully synthetic hybrid-scale fiber matrix, indicated for use in a variety of wounds including surgical wounds, trauma wounds, and chronic wounds such as diabetic foot ulcers and venous leg ulcers. Restrata is manufactured with synthetic bioresorbable polymers and possesses a fibrous structure with high porosity. The product architecture, which is similar to native extracellular matrix, allows for cell ingress and retention, as well as neovascularization of the newly forming tissue without the need for added growth factors. As the wound healing process progresses, Restrata completely degrades via hydrolysis, leaving native tissue in its place. Restrata is shelf stable and carries a two-year shelf life.

Erchonia Corporation was founded in 1996 as a small family business, and even though we have grown into an international enterprise, we still operate under the founding principles that guided us to our present success. Our commitment to the legitimate advancement of low-level laser therapy (LLLT) through scientific and clinical research has transformed Erchonia into a world leader in the field of LLLT technology. The integrity, diligence, quality and commitment of our company are evident in the rigorous process we follow in taking a research hypothesis from concept to viable, agency-approved product and treatment method.

saorsa Inc

A6

Saorsa is the distributor of breakthrough SWIFT microwave technology, a disruptively innovative therapy used for viral lesions, primarily plantar warts and now IPK's. By harnessing the power of low level microwaves, SWIFT essentially "uncloaks" HPV infected cells by stimulating a natural immune response. There is no patient downtime and treatment is delivered in less time than other modalities. SWIFT is quick and clean, does not break the skin, requires no post treatment bandages or at-home care, creates no smoke or plume, and does not destroy tissue. Visit us and speak to our team to find out how Swift can significantly impact your patient outcomes and contribute to a healthy bottom line for your practice.
