

Foundation Mission Statement:

The Foundation for Podiatric Medicine, established in 1986, is the educational, scientific and research arm of the New York State Podiatric Medical Association. As such, it is a nonprofit 501(c) (3) organization that depends on corporate and private grants, as well as income generated at the annual New York Podiatric Clinical Conference. The Foundation serves all podiatrists in New York state, and throughout the world, who wish to participate in its programs. The mission of the Foundation for Podiatric Medicine is to offer continuing medical education, professional development and public information services.

Foundation Non-Discrimination Statement:

No person shall be denied registration or participation in any continuing education program provided by this Foundation for reasons of race, religion, sex, national origin or physical ability.

Foundation Disclosure Statement:

The Foundation for Podiatric Medicine ensures balance, independence, objectivity, and scientific rigor in all individually provided or jointly provided educational programs. All individuals who have influence over the content of the educational activity (i.e., instructors, course director(s), planning committee, faculty, etc.) have no financial conflicts of interest that may lead to any biases in the educational content presented from The Foundation for Podiatric Medicine

Foundation Education Mission Statement:

The scientific sessions provided by the Foundation for Podiatric Medicine are designed with the educational goal of presenting balanced academic discussions for the primary care podiatric physician, and also to initiate education in the areas of diagnosis and management of ankle pathology. Providing cutting-edge educational programs in a variety of learning formats - its educational programs offer a forum for dialogue about the vital educational and clinical information that is crucial to all podiatrists, ensuring professional development that enhances quality patient care and advances the profession.
